Carlo: Well, we include vegan meat and lots of hidden vegetables.

Who's your favourite or least favourite student?

I like everyone the same!

Some children have said they only like your breaktime meals, how do you react?

I think everyone should enjoy both.

What is your favourite meal to cook?

I think it's probably pizza.

Break or Lunch?

Do you prefer the food at break time or lunch time in the Chough Kitchen? Our reporters went to find out, and discovered that break-time food was much more popular. In fact three times as many people liked the food at break more than lunch.

A. A STAMP

SPOTLIGHT ON...

Lights, Camera, ACTION! Time for the teachers to answer the questions.

Mr Male

What do you like about being a teacher?

Working with children because they are always good fun. They have lots of energy and are generally happy whereas adults can be a bit miserable.

Why did you want to be a teacher?

Well I really enjoyed my time at primary school, so I thought that looks like fun to do, I'll give it a try and it was.

Do you prefer the old board or the new smart board?

I actually prefer the old board with the projector because it was bigger and I could write on it properly with a whiteboard pen. My handwriting is awful anyway and on the new board its even worse.

What is your favourite subject?

I do like PE but I always like reading too.

What is your favourite book?

My favourite series of books is Discworld by Terry Pratchett, I love them. Also I just gave someone the Graveyard book by Neil Gaiman, which I really liked.

What is your favourite song?

Well the song that was played for my first dance at my wedding was Wonderful Tonight by Eric Clapton, so I will go with that.

Why did you choose Newquay Junior?

I was doing work experience to see if I wanted to be a teacher, and I came into this school and I really liked it. I did my training and then I got the job here and I haven't left – so I must really like it.

“ Working with children is always good fun. ”

Was this the only school that you asked?

No, I was in Bristol and I applied for a couple of schools there and a couple of schools down here. When I came here the headteacher was very welcoming and he liked me so he said he'd get me in. He also said my application form was awful and if he hadn't met me first he would have just thrown it in the bin!

Can you recite the Japanese dictionary?

No. Konnichiwa. That's about all I know.

And finally...can you tell us about your modelling past?

Have you been talking to Mr Doble?! Well it did get me a few free clothes and wetsuits, so it was all right, but that's long behind me now.

WHAT GETS BIGGER THE MORE YOU TAKE AWAY FROM IT? A HOLE!

Mr Doble

What do you like about teaching?

Being around children who are energetic and full of life, not moany, whingy people my age.

Do you think you are a good teacher and why do you think you are?

Well, I don't really know. I think yes, because I don't know everything. I make more mistakes than probably most of the children in the class. But because I make mistakes, actually the children know that's it's ok and we all make mistakes. I'm not particularly academic so I have to work hard just to achieve the standard of work that the children do.

Do you wish you had a coffee machine in your classroom and why?

No, because if I had one in my classroom, then I would have to make it. Instead, Mr. Murphy makes it, and all I have to do is pour it.

Did you want to become a teacher when you were younger?

Well I really like sport but I couldn't become a professional sportsperson – I was never good enough. I liked coaching, and that led to teaching. I had a really good English teacher in secondary school and I think that's why I ended up in teaching.

“ I think Carlo is an amazing cook and at tuck time they should have a security guard to keep me out.”

Do you like your class?

Yes, I like them, they're really nice. And I have my safety net of Hannah making sure I don't read out the wrong questions, and when I read one out incorrectly, I know she'll be there to tell me 'That's not actually the question Mr Doble,' so it's perfect!

Why did you want to be a teacher? And why at this school?

I think that relates back to what I like about teaching – because if I had an office job I'd be with people my age and all they do is moan and they don't have the energy ten-year-olds have. The old head teacher phoned me up and asked if I wanted to come and interview. And Newquay children are really special children. I go around Cornwall a lot and children from Newquay are special, they've got a different kind of energy than children from Camborne or Redruth or Helston. It really is true, the energy and the passion you have, and intelligence is very different from the rest of Cornwall.

What do you think about the school dinners?

I think Carlo is an amazing cook and at tuck time they should have a security guard to keep me out. Especially when there are those bacon and cheesy puff things...

Do you think that SATs should have different rules?

You know what, I like the idea, I think SATs are really hard. But I like seeing how much children can achieve and how they can extend their own beliefs of their own abilities to be able to achieve a really high standard of SATs.

Who is the strictest teacher in year six - other than you?

Well, it depends on what you mean by strict. Mr. Male is firm in certain ways, Mr. Hoswell has a lot of different expectations, and Miss Dewsnap has got really high expectations, but that doesn't mean she's strict. So, I'm not really sure. We have to make sure the rules are followed.

And lastly...do you like doughballs?

Pizza express doughballs? Mmm, They've got a lovely crunchy outside, and a slight squish in the middle. And you can have them with garlic butter or Nutella.

Alariah: Karate

Alariah does karate and is a purple belt. She is getting close to her purple stripe belt. She loves karate because it's fun and energetic.

Elspeth likes flipping and tumbling. Her favourite thing is floor, beam vault and bars (so basically everything) she has won 35 medals, 5 team comps and 20 single comps. She has got gold 5 times and has been competing for 8 years.

Elspeth: Gymnastics

There are loads of sports you can do at school and out of school. We asked some of you what sports you like.

Issy: Horse Riding

Issy has been horse riding for 11 months and has been in 2 competitions and won both. Her favourite thing to do is canter. Her horses are Puzzle and Silver. She goes to Barnwell Stable.

Riley: Football

What position do you play?

Centre back or CDM.

How do you feel about the last tournament?

I feel relatively happy because we didn't lose a game (Team 2) and a bit sad because we scored 3 goals.

How do you feel about the next tournament if you get chosen?

Pretty confident because NJA are a better team than all our rivals and I doubt we will lose a game this season.

What do you enjoy most about the tournament?

You will always have a school friend there.

What place did you come?

4th (Team 2).

How well do you think your team played?

Pretty decent but some bad decisions I think we should have had more strikers.

WHAT HAS HANDS AND A FACE
BUT NO BODY?
A CLOCK!

Mrs Rai: PE Teacher

Mrs Rai loves her job and all the teachers she works with. She used to be a pupil at this school. Her favourite sport is netball.

Nyla: Football

Nyla normally plays left wing or striker. Her favourite thing about football is the team and friendship.

THE BIG DEBATE

Do crisps belong in sandwiches?

People have been putting crisps in sandwiches for years. But some people **HATE** the idea. Two of *The Buzz* team tell us their arguments.

CRISPS IN

Crisps belong in sandwiches, if you have two pieces of bread and crisps inside it's amazing. It's just so nice biting into a crispy sandwich. Crisps belong in sandwiches. It gives your senses a tingle and it gives it a crunch.

CRISPS OUT

My argument is that crisps do not belong in sandwiches because... Crisps in a sandwich makes it crunchy and it overloads the flavour of a sandwich. There are many flavours of crisps and just bread on its own has plenty of flavour, but if I have bread on its own I like to have butter on it. I like to have mine with ham and sometimes chicken. But no crisps!

Our team went out and asked 100 of you what you thought. And the results were... **TIED!** Exactly even!

An A to Z of Animals

Can you think of any others?

Did you know?

~ Humans are just one of the thousands of mammals on the planet

~ There are millions of species of animals

~ Snakes, crocodiles, lizards and turtles are all reptiles

~ Birds are the only animals to have feathers

~ Frogs, Lizards and Squirrels have flaps between their limbs or toes

~ When they jump they stretch out the flaps of their skin

~ Animals use their legs in different ways

~ Most two-legged animals, such as kangaroos, bounce on two legs at once

~ Many legged animals, such as millipedes, begin by moving their back legs and finish moving their front legs

~ Snakes and worms don't have legs but use powerful body muscles to slither around on their body.

CORNER

A few things to think about from The Buzz's expert pet team...

Indoor pets

If you're looking for a warm, cuddly pet my opinion is either a rabbit or a dog is best. Now rabbits are more inside but in the summer they need to be outside because it will be very hot inside for them. Dogs are definitely more crazy and bouncy. They can be calm from time to time and are so cute when calm. If I had to pick, it would be...BOTH!

Outdoor pets

Now if I think of it there are LOADS of pets! Some people have wild animals as pets like a Fennec fox, and they are the most adorable thing ever! But they are feisty and hard to care for, and you should definitely not have them around kids, they could hurt them. So let's look at the ones you can actually have. Like CATS, they are so fluffy and love being cuddled. You also need to let them outside - or get a little cat door because they like to roam about. It isn't uncommon for cats to go missing for 24 hours so be careful! Last but definitely not least, a guinea pig. They can be kept in a big hutch in the garden or inside. They love eating grass but when they go outside make sure its in a enclosed area as they are hard to catch!

Lexi has a turtle called Tunk

Poppy has a dog called Morris and a donkey

Lei'lani has 2 oriental cats called Raffi and Roly

Noah has 3 cats

Annie has a dog

Amber has 2 bunnies

Matilda has a hamster, cat and a rabbit

"It's an amazing film, and an even better book!"

"It's an absolutely awesome book, and adventurous too!"

"If you have not read this book, you have got NO idea what you are missing out on!!!"

At midnight, Bristol was pitch black, nothing to be seen. There was a full moon and something mysterious among the city. Seven hours later (7am) a sighting of a wolf, 3 minutes from Exeter was uploaded onto YouTube. At first nobody noticed it, but then it blew up over the internet (it was even on BBC news). A week later, there were sightings in Totnes and Plymouth. The wolf seemed to be going west. The story was on every international news channel, even #BarbieGirlSlaySlay (the biggest TikToker ever) did a tiktok on it.

At the same time there was a YouTube channel going viral called The Wolf Hunters. The Wolf Hunters uploaded videos of them hunting wolves, unsurprisingly they did a livestream in Newquay where they tried to find the wolf. When the church bell struck one, a sudden shadow appeared behind a bush. Immediately they started filming, the ominous shadow got closer and closer. Speedily a baby wolf jumped out of the bush.

A short story by one of *The Buzz* team

They were confused for a long time, but then they looked back at all the other footage and it never showed the wolf but it only showed the shadow of the wolf.

There still remained ONE question. Why is it here?

After a lot of petting, they noticed a hole in the fur and a zip. Confused they opened the zip... Shocked, they ended the livestream, exposing the teenager in the suit. The comments went crazy, no one suspected it would be #BarbieGirlSlaySlay. Many were confused why she did it. She later explained she was losing views and wanted attention. She was going to reveal herself in Penzance.

With that, the biggest mystery in the world: **SOLVED!**

A quick note from our Editor:

Here is the fantastic team behind Issue 1 of The NJA Buzz. This group from year 6 took on the whole process of putting a magazine together. They planned their content, did interviews, examined results of their surveys, wrote up their pieces accurately, created puzzles and artwork, took or sourced photos, decided on page layout - including fonts, colours and backgrounds - and they gave up lunchbreak enthusiastically every week to do it all. A big well done from me, great job everyone! Time for Issue 2...

Ruth.
